

Datasea Attended the 2022 World 5G Convention in Harbin

The 2022 world 5G Convention kicked off in Harbin, the capital of northeast China 's Heilongjiang Province.Heilongjiang Xunrui Technology Co, a subsidiary of Datasea attended the Convention as a leading 5G messaging service provider in Heilongjiang.

The event aimed to bring together the latest achievements and viewpoints of 5G development in the world, draw a blueprint for a global system of science and technology as well as industrial cooperation, and built a platform for the closer integration of the 5G innovation chain, industrial chain, and supply chain.China has some 1.85 million 5G base stations and more than 450 million 5G end users, both accounting for over 60 percent of the global market.

The convention, themed "5G+ By All For All," focuses on jointly building digital infrastructure, promoting industrial cooperation, and facilitating international cooperation and industrial chain collaboration and innovation in the field of 5G. The three-day event features forums, exhibitions, and a 5G-based application design competition. Eight of 11 forums focus on 5G applications in the industrial internet, carbon reduction, health, education, the 2022 winter Olympics, and the media.
