NOTE 1 – ORGANIZATION AND DESCRIPTION OF BUSINESS

Datasea Inc. (the “Company”) was incorporated in the State of Nevada on September 26, 2014 under the name Rose Rock Inc. and changed its name to Datasea Inc. on May 27, 2015 by amending its articles of incorporation.

On May 26, 2015, the Company’s founder, Xingzhong Sun, sold 20,000,000 shares of common stock, par value \$0.001 per share, of the Company (the “Common Stock”) to Zhixin Liu, one of the owners of Shuhai Skill (HK) as defined below. On October 27, 2016, Mr. Sun sold his remaining 5,000,000 shares of Common Stock of the Company to Ms. Liu.

On October 29, 2015, the Company entered into a share exchange agreement (the “Exchange Agreement”) with the shareholders (the “Shareholders”) of Shuhai Information Skill (HK) Limited (“Shuhai Skill (HK)”), a limited liability company incorporated on May 15, 2015 under the laws of the Hong Kong Special Administrative Region of the People’s Republic of China (the “PRC”). Pursuant to the terms of the Exchange Agreement, the Shareholders, who together own 100% of the ownership rights in Shuhai Skill (HK), transferred all of the issued and outstanding ordinary shares of Shuhai Skill (HK) to the Company in exchange for the issuance of an aggregate of 4,000,000 (20,000,000 after the forward split described in Note 9) shares of Common Stock, thereby causing Shuhai Skill (HK) and its wholly owned subsidiaries, Tianjin Information Sea Information Technology Co., Ltd. (“Tianjin Information”), a limited liability company incorporated under the laws of the PRC, and Harbin Information Sea Information Technology Co., Ltd. (“Harbin Information”), a limited liability company incorporated under the laws of the PRC, to become wholly-owned subsidiaries of the Company, and Shuhai Information Technology Co., Ltd., also a limited liability company incorporated under the laws of the PRC (“Shuhai Beijing”), to become a variable interest entity (“VIE”) of the Company through a series of contractual agreements between Shuhai Beijing and Tianjin Information. The transaction was accounted for as a reverse merger, with Shuhai Skill (HK) and its subsidiaries being the accounting survivor. Accordingly, the historical financial statements presented are those of Shuhai Skill (HK).

Following the Share Exchange, the Shareholders, being Zhixin Liu and her father, Fu Liu, owned approximately 85.45% of the outstanding shares of Common Stock. As of October 29, 2015, there were 55,000,000 shares of Common Stock issued and outstanding, 47,000,000 of which were beneficially owned by Zhixin Liu and Fu Liu.

After the Share Exchange, the Company, through its wholly owned subsidiaries and VIE entities, is engaged in the business of providing Internet security products, new media advertising, micro-marketing, and data analysis services in the PRC.

NOTE 2 – GOING CONCERN

The accompanying unaudited condensed consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As shown in the accompanying unaudited condensed consolidated financial statements, the Company generated revenue of \$2,052 and \$135,016, and had gross profit of \$23 and gross loss of \$6,031 during three and nine months ended March 31, 2017, has an accumulated deficit of \$2,073,288 at March 31, 2017, and has incurred losses since inception. These circumstances, among others, raise substantial doubt about the Company's ability to continue as a going concern. The unaudited condensed consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The Company's management recognizes that the Company must generate sales and additional resources to enable it to continue to develop its operations. Based on increased demand for internet services in China, including internet security and big data integration, the Company's management team expects a healthy growth in its business. The Company's management intends to raise additional financing through debt and equity financing or through other means that it deems necessary, with a view to moving forward and sustaining prolonged growth in its initial phases. However, no assurance can be given that the Company will be successful in raising additional capital.

NOTE 3 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**BASIS OF PRESENTATION AND CONSOLIDATION**

The accompanying unaudited condensed consolidated financial statements include the financial statements of the Company and its 100% owned subsidiaries of Shuhai Skill (HK"), Tianjin Information, Harbin Information and Shuhai Beijing.

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments and elimination of intercompany transactions upon consolidation) which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally present in the annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes for the year ended June 30, 2016. The results of the three and nine month periods ended March 31, 2017 are not necessarily indicative of the results to be expected for the full year ending June 30, 2017.

NOTE 3 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**USE OF ESTIMATES**

The preparation of unaudited condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The significant areas requiring the use of management estimates include, but are not limited to, estimated useful life and residual value of property, plant and equipment, provision for staff benefit, recognition and measurement of deferred income taxes and valuation allowance for deferred tax assets. Although these estimates are based on management's knowledge of current events and actions management may undertake in the future, actual results may ultimately differ from those estimates and such differences may be material to our consolidated financial statements.

CONTINGENCIES

Certain conditions may exist as of the date the unaudited condensed consolidated financial statements are issued, which may result in a loss to the Company but which will only be resolved when one or more future events occur or fail to occur. The Company's management and legal counsel assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought. If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, the estimated liability would be accrued in the Company's financial statements.

If the assessment indicates that a potential material loss contingency is not probable but is reasonably possible, or is probable but cannot be estimated, the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material, would be disclosed.

START-UP COSTS

In accordance with ASC 720, "Start-up Costs," the Company expenses all costs incurred in connection with the start-up and organization of the Company.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, demand deposits and short-term cash investments that are highly liquid in nature and have original maturities of three months or less. The Company has no cash equivalents as of March 31, 2017 and June 30, 2016.

DATASEA INC.

NOTE 3 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**INVENTORY**

Inventory is stated at the lower of cost or market. Cost is determined using the weighted-average cost method. Provisions are made for excess, slow moving and obsolete inventory as well as inventory whose carrying value is in excess of net realizable values, if any. As of March 31, 2017, The Company reclassified \$10,544 from project in progress to inventory since the Company purchased more materials for Daqing Project and the Project was completed in December 2016.

PROPERTY AND EQUIPMENT

Property and equipment are stated at cost, less accumulated depreciation. Major repairs and improvements that significantly extend original useful lives or improve productivity are capitalized and depreciated over the period benefited. Maintenance and repairs are expensed as incurred. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in operations. Depreciation of property and equipment is provided using the straight-line method over estimated useful lives as follows:

| | |
|------------------------|------------|
| Furniture and fixtures | 5-10 years |
| Office equipment | 3-5 years |

Leasehold improvements are depreciated on a straight-line method over the shorter of estimated useful lives or lease terms.

INTANGIBLE ASSETS

Intangible assets with finite lives are amortized using the straight-line method over their estimated period of benefit. Evaluation of the recoverability of intangible assets is made to take into account events or circumstances that warrant revised estimates of useful lives or that indicate that impairment exists. All of our intangible assets are subject to amortization. The Company acquired Value added telecommunications business license on September 28, 2015. No impairment of intangible assets has been identified as of the balance sheet dates.

Intangible assets include licenses and certificates and are amortized over their useful life of five years.

NOTE 3 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**FAIR VALUE MEASUREMENTS AND DISCLOSURES**

FASB ASC Topic 820, “Fair Value Measurements,” defines fair value, and establishes a three-level valuation hierarchy for disclosures of fair value measurement that enhances disclosure requirements for fair value measures. The three levels are defined as follows:

- Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Certain of the Company’s financial instruments, including cash, accounts payable, loan payable and other payables, are carried at costs, which approximate their fair values due to their short maturities.

As of March 31, 2017, the Company did not identify any assets and liabilities that are required to be presented on the balance sheet at fair value on a recurring basis.

IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 360-10, Accounting for the Impairment or Disposal of Long-Lived Assets, long-lived assets such as property, plant and equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable, or it is reasonably possible that these assets could become impaired as a result of technological or other industrial changes. The determination of recoverability of assets to be held and used is made by comparing the carrying amount of an asset to future undiscounted cash flows to be generated by the assets.

If such assets are considered to be impaired, the impairment to be recognized is measured as the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less cost to sell. During the reporting periods there was no impairment loss recognized on long-lived assets.

NOTE 3 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**REVENUE RECOGNITION**

The Company recognizes revenues from professional services contracts. Customers are billed, according to individual agreements. Revenues from professional services are recognized on a completed-contract basis, in accordance with ASC Topic 605-35, "Construction-Type and Production-Type Contracts." Under the completed-contract basis, contract costs are recorded to projects in process and billings and/or cash received are recorded to a deferred revenue liability account during the periods of construction. Costs include direct material, direct labor and subcontract labor. All revenues, costs, and profits are recognized in operations upon completion of the contract. A contract is considered completed when all costs except insignificant items have been incurred and final acceptance has been received from the customer. Corporate general and administrative expenses are charged to the periods as incurred. However, in the event a loss on a contract is foreseen, the Company will recognize the loss as incurred. For uncompleted contracts, the deferred asset (accumulated contract costs) in excess of the deferred liability (billings and/or cash received) is classified under current assets as costs in excess of billings on uncompleted contracts. The deferred liability (billings and/or cash received) in excess of the deferred asset (accumulated contract costs) is classified under current liabilities as billings in excess of costs on uncompleted contracts. Contract retentions are included in accounts receivable.

In January 2016, the Company secured a government procurement contract with the Bureau of Public Security of Daqing City in Heilongjiang Province. As of December 31, 2016, the project has been completed.

INCOME TAXES

The Company uses the asset and liability method of accounting for income taxes in accordance with ASC Topic 740, "Income Taxes." Under this method, income tax expense is recognized for the amount of: (i) taxes payable or refundable for the current year and (ii) deferred tax consequences of temporary differences resulting from matters that have been recognized in an entity's financial statements or tax returns. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the results of operations in the period that includes the enactment date. A valuation allowance is provided to reduce the deferred tax assets reported if based on the weight of the available positive and negative evidence, it is more likely than not some portion or all of the deferred tax assets will not be realized.

ASC Topic 740.10.30 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC Topic 740.10.40 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company has no material uncertain tax positions for any of the reporting periods presented.

CONCENTRATION OF CREDIT RISK

The Company maintains cash in accounts with state-owned banks within the PRC. Cash in state-owned banks is not covered by insurance. Should any of these institutions holding the Company's cash become insolvent, or if the Company is unable to withdraw funds for any reason, the Company could lose the cash on deposit with that institution. The Company has not experienced any losses in such accounts and believes it is not exposed to any risks on its cash in these bank accounts.

NOTE 3 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**FOREIGN CURRENCY TRANSLATION AND COMPREHENSIVE INCOME (LOSS)**

The accounts of the Company's Chinese subsidiary are maintained in RMB and the accounts of the U.S. parent company are maintained in USD. The accounts of the Chinese subsidiary were translated into USD in accordance with Accounting Standards Codification ("ASC") Topic 830 "Foreign Currency Matters." All assets and liabilities were translated at the exchange rate on the balance sheet date; stockholders' equity is translated at historical rates and statement of income items are translated at the average exchange rate for the period. The resulting translation adjustments are reported under other comprehensive income in accordance with ASC Topic 220, "Comprehensive Income." Gains and losses resulting from the foreign currency transactions are reflected in the statements of income.

The Company follows FASB ASC Topic 220-10, "Comprehensive Income." Comprehensive income comprises net income and all changes to the statements of stockholders' equity, except those due to investments by stockholders, changes in paid-in capital and distributions to stockholders.

RECENT ACCOUNTING PRONOUNCEMENTS

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)" to increase the transparency and comparability about leases among entities. The new guidance requires lessees to recognize a lease liability and a corresponding lease asset for virtually all lease contracts. It also requires additional disclosures about leasing arrangements. ASU 2016-02 is effective for interim and annual periods beginning after December 15, 2018, and requires a modified retrospective approach to adoption. Early adoption is permitted. The Company is currently evaluating the impact of this new standard on its consolidated financial statements and related disclosures.

In April 2016, FASB issued Accounting Standards Update No. 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing. The amendments clarify the following two aspects of Topic 606: (a) identifying performance obligations; and (b) the licensing implementation guidance. The amendments do not change the core principle of the guidance in Topic 606. The effective date and transition requirements for the amendments are the same as the effective date and transition requirements in Topic 606. Public entities should apply the amendments for annual reporting periods beginning after December 15, 2017, including interim reporting periods therein (i.e., January 1, 2018, for a calendar year entity). Early application for public entities is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company is currently evaluating the impact of this new standard on its consolidated financial statements.

In May 2016, FASB issued ASU No. 2016-12—Revenue from Contracts with Customers (Topic 606); Narrow-Scope Improvements and Practical Expedients, which is intended to not change the core principle of the guidance in Topic 606, but rather affect only the narrow aspects of Topic 606 by reducing the potential for diversity in practice at initial application and by reducing the cost and complexity of applying Topic 606 both at transition and on an ongoing basis. The Company is assessing the impact of the adoption of the ASU on its consolidated financial statements, disclosure requirements and methods of adoption.

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the accompanying unaudited consolidated financial statements.

NOTE 10 – INCOME TAXES

The Company was incorporated in the United States of America, is subject to U.S. tax and files U.S. federal income tax returns. The Company conducts all of its businesses through its subsidiaries and affiliated entity. The Company's effective tax rate is 15% for income tax for the three and nine months ended March 31, 2017. Based on the weight of available evidence, including cumulative losses since inception and expected future losses, the Company has determined that it is more likely than not that the deferred tax asset amount will not be realized and therefore a valuation allowance has been provided on net deferred tax assets.

The Company's offshore subsidiary, Shuhai Skill (HK), did not earn any income that was derived in Hong Kong for the three and nine months ended March 31, 2017, and therefore did not incur any Hong Kong Profit tax.

Under the Corporate Income Tax Law of the People's Republic of China, the Company's offshore subsidiaries in PRC has effective tax rate of 25%.

Overview and Recent Developments

The Company was incorporated in the State of Nevada on September 26, 2014 under the name Rose Rock Inc. and changed its name to the current name on May 27, 2015 by amending its articles of incorporation.

Table of Contents

On October 29, 2015, the Company entered into an exchange agreement (the “Exchange Agreement”) with Ms. Zhixin Liu and Mr. Fu Liu, the shareholders (“Shareholders”) of Shuhai Information Skill (HK) Limited (“Shuhai Skill (HK)”). Pursuant to the terms of the Exchange Agreement, the Shareholders, who together owned 100% of the ordinary shares of Shuhai Skill (HK), transferred all of the issued and outstanding ordinary shares of Shuhai Skill (HK) to the Company in exchange for the issuance of an aggregate of 20,000,000 shares of the Company’s Common Stock, thereby causing Shuhai Skill (HK) and its wholly foreign owned subsidiaries, Tianjin Information Sea Information Technology Co., Ltd., a limited liability company incorporated under the laws of the PRC (“Tianjin Information”), and Harbin Information Sea Information Technology Co., Ltd., a limited liability company incorporated under the laws of the PRC (“Harbin Information”) became wholly-owned subsidiaries of the Company, and Shuhai Information Technology Co., Ltd., also a limited liability company incorporated under the laws of the PRC (“Shuhai Beijing”), became the Company’s variable interest entity. The transaction was accounted for as a reverse merger, with Shuhai Skill (HK) and its subsidiaries being the accounting survivor. Accordingly, the historical financial statements presented are those of Shuhai Skill (HK).

On October 27, 2015, the Company’s founder, Xingzhong Sun, sold all his 5,000,000 shares of Common Stock of the Company to Zhixin Liu. Following the transaction, Zhixin Liu and her father, Fu Liu, beneficially owned approximately 85.45% of the outstanding shares of Common Stock. As of October 29, 2015, there were 55,000,000 (post-split) shares of Common Stock issued and outstanding, 45,000,000 of which were owned by Zhixin Liu and Fu Liu.

On November 12, 2015, the Company effected a five-for-one forward split (the “Forward Split”) of the Common Stock, pursuant to which each shareholder of the Company was issued five shares of Common Stock in exchange for each share of their then-issued Common Stock. In conjunction with the Forward Split, the Company’s authorized shares of Common Stock increased from 75,000,000 shares to 375,000,000 shares. Immediately following the Forward Split, the Company had a total of 55,000,000 issued and outstanding shares of Common Stock.

Following the reverse merger, the Company, through its wholly owned subsidiaries and VIE, is in the business of providing Internet security products, new media advertising, micro-marketing, and data analysis services in the PRC.

The Company started to sell its products during the calendar year 2016. In January 2016, the Company secured a government procurement contract with the Bureau of Public Security of Daqing City in Heilongjiang Province. Pursuant to the contract, the Company installed wireless internet terminal collection equipment and 3G wireless network cards, as well as provided training services related to the use of the equipment for a total contract price of RMB1,050,000 (approximately \$155,567). The project was accepted by the customer in the quarter ended December 31, 2016 and the Company recognized revenue of \$132,964. The difference of \$22,604 is the value added tax of 17%.

The Company believes that the increased demand for internet security equipment and related services in China, including internet security, micro marketing, new media advertising and big data integration, presents a great opportunity for the Company to establish and grow its business in the next twelve months.

During the quarter ended March 31, 2017, the Company focused on the development of its “Safe Campus” program that uses its Xin Platform to provide teachers, students and families with comprehensive campus information, student safety management and integrated education information. As of the date of this report, the Company has signed agreements with over 30 schools in more than ten provinces covering approximately 3,000 students, to use our “Safe Campus” program. We will begin implement our system in the quarter ended June 30, 2017 as well as further introduce this program to more schools. With the increase in user base, we will generate revenue from sales of advertisement in our program, which is expected to occur in August 2017.

[Table of Contents](#)**Results of Operations****Three and Nine Months Ended March 31, 2017 and 2016***Revenue*

The Company recognized \$2,052 and \$135,016 of revenue during three and nine months ended March 31, 2017 from the government procurement contract with the Bureau of Public Security of Daqing City in Heilongjiang Province. During the quarter ended March 31, 2017, the company has not executed any procurement contracts but continued to receive certain payment from the Daqing project.

Cost of Goods and Gross Loss

The Company recorded \$2,029 and \$141,047 of cost of goods for the three and nine months ended March 31, 2017. The Company had gross profit of \$23 for the three months ended March 31, 2017, and gross loss of \$6,031 for the nine months ended March 31, 2017 since the project with the Bureau of Public Security of Daqing City is the first project completed and the cost of raw materials incurred is high.

Selling, General and Administrative Expenses

Selling expenses were \$30,620 and \$0 for the three months ended March 31, 2017 and 2016, respectively. Selling expense were \$85,712 and \$0 for the nine months ended March 31, 2017 and 2016, respectively. The increase was primarily due to increase in salary since the Company hired additional employees to complete work under the procurement agreement with Bureau of Public Security of Daqing City.

For the three months ended March 31, 2017, we had general and administrative expenses of \$247,688, as compared to \$190,091 for the three months ended March 31, 2016, an increase of approximately \$57, 597 or 30.3%. The increase was primarily due to increase in salary and research and development expense since the Company hired more employees to for its “Safe Campus” program.

For the nine months ended March 31, 2017, we had general and administrative expenses of \$680,406, as compared to \$750,015 for the nine months ended March 31, 2016, a decrease of approximately \$69,609 or 9.28%. The decreases in general and administrative expense were primarily attributable to decrease in professional fees. We paid a large amount of professional fees in connection with reverse merger transactions in November, 2015.

Net Loss

As a result of the foregoing, net losses were \$266,291 and \$190,004 for the three months ended March 31, 2017 and 2016, respectively, and \$745,698 and \$749,890 for the nine months ended March 31, 2017 and 2016, respectively.

Liquidity and Capital Resources

We have funded our operations to date primarily through the sale of equity securities, shareholder loans and capital contributions. Based on our current cash level and management’s forecast of operating cash flows, management has determined that the Company will require additional funds to finance our planed operations for the next twelve months.

[Table of Contents](#)

Due to our negative cash flow from operating activities since inception, there is substantial doubt about the Company's ability to continue as a going concern. The Company's management recognizes that the Company must generate sales and obtain additional financial resources to continue to develop its operations. Based on increased demand for internet services in China, including internet security and big data integration, the Company expects to continue to generate revenue during the fiscal year ending June 30, 2017, which will be used to fund its operations. In addition, the Company intends to raise additional funds through debt and equity financing or through other means that it deems necessary. However, there can be no assurance that financing will be available in amounts or terms acceptable to the Company, if at all.

As of March 31, 2017, we had a working capital of \$286,942. Our current assets on March 31, 2017 were \$476,464, primarily consisting of cash of \$344,132, prepaid expenses and other current assets of \$110,339. Our current liabilities were primarily composed of accounts payable of \$43,265, accrued expenses and other payables of \$76,720 and loans payable to a shareholder of \$69,537.

Cash Flow in Operating Activities

Net cash used in operating activities was \$607,852 during the nine months ended March 31, 2017, which primarily consisted of our net loss of \$745,698, offset by a noncash adjustment of \$48,211, increase in project in progress of \$205,342 which included \$119,809 from the return of defective products, the change in project in progress due to the completion of the project with the Bureau of Public Security of Daqing City in the quarter ended December 31, 2016, and a decrease in accounts payable of \$149,808 due to decrease of materials and equipment bought during this period.

Net cash used in operating activities was \$787,353 during the nine months ended March 31, 2016, which previously consisted of our net loss of \$749,890, offset by a noncash adjustment of \$10,630, a change in project in progress of \$224,691, and an increase of accounts payable of \$144,920, accrued expenses and other payables of \$78,769.

Cash Flow in Investing Activities

Net cash used in investing activities totaled \$11,593 for the nine months ended March 31, 2017, which was primarily used for the acquisition of office equipment, leased improvement and intangible assets.

Net cash used in investing activities totaled \$56,783 for the nine months ended March 31, 2016, which primarily related to cash received from the reverse merger of \$12,618, cash paid for the acquisition of office equipment and leasehold improvements of \$55,385 and cash paid for the acquisition of intangible assets of \$14,016.

The Company purchased more office equipment and intangibles during the nine months ended March 31, 2016 compared to the same period in year 2017, as the Company was set up in fiscal year 2015.

Cash Flow in Financing Activities

Net cash provided by financing activities was \$956,868 during the nine months ended March 31, 2017, which primarily consisted of the proceeds from sales of the Company's common stock of \$1,059,150 partially offset by the payment to related party of \$102,282.

[Table of Contents](#)

Net cash provided by financing activities was \$1,053,261 during the nine months ended March 31, 2016, which primarily consisted of capital contributions of \$805,590 and the proceeds from sales of the Company's common stock of \$248,453.

Off-Balance Sheet Arrangements

There are no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition changes in financial condition, revenues, expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Contractual Obligations

In January 2016, the Company secured a government procurement contract with the Bureau of Public Security of Daqing City in Heilongjiang Province. Upon completion of such contract, the Company will be required to provide 5 years warranty for terminal features collection equipments and lifetime warranty for software updates. We estimated the cost will be RMB 393,000(or approximately \$57,837). The Company recorded \$2,892 of warranty expense during the three and nine months ended March 31, 2017.

Subsequent Event

On May 5, 2017, the Company entered into subscription agreements with investors in China and sold 237,000 shares of the Company's Common Stock at \$1.38 per share. The Company received the proceeds of \$327,060 from sale of Common Stock.

Inflation

We do not believe our business and operations have been materially affected by inflation.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

This item is not applicable as we are currently considered a smaller reporting company.

ITEM 4. CONTROLS AND PROCEDURES**Disclosure Controls and Procedures**

[Table of Contents](#)

As required by Rule 13a-15 of the Securities Exchange Act of 1934, our principal executive officer and principal financial officer evaluated our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and principal financial officer concluded that as of the end of the period covered by this report, these disclosure controls and procedures were not effective to ensure that the information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and to ensure that such information is accumulated and communicated to our company's management, including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure. The conclusion that our disclosure controls and procedures were not effective was due to the presence of the following material weaknesses in internal control over financial reporting which are indicative of many small companies with a small staff: (i) inadequate segregation of duties and effective risk assessment; (ii) lack of personnel adequately trained in U.S. GAAP; and (iii) insufficient written policies and procedures for accounting and financial reporting with respect to the requirements and application of both U.S. GAAP and SEC guidelines. Management anticipates that such disclosure controls and procedures will not be effective until the above material weaknesses are remediated.

We plan to take steps to enhance and improve the design of our internal controls over financial reporting. During the period covered by this report, we have not been able to remediate the material weaknesses identified above. To remediate such weaknesses, we plan to implement the following changes during our fiscal year ending June 30, 2017, subject to obtaining additional financing: (i) appoint additional qualified personnel to address inadequate segregation of duties and ineffective risk management; and (ii) adopt sufficient written policies and procedures for accounting and financial reporting. The remediation efforts set out above are largely dependent upon our securing additional financing to cover the costs of implementing the changes required. If we are unsuccessful in securing such funds, remediation efforts may be adversely affected in a material manner.

Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended March 31, 2017 that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting.
